

Prevention Control of Infection in Health and Care Settings Award level 2

Course Overview

This is a supported online learning course which is available 50 weeks of the year (including non-term times). You can study either one whole day or split over a few days. Days and times to suit your personal commitments, and the learning is taken at your own pace and complete the assessment once you feel you are ready. The aim of this course is to provide successful individuals with a nationally recognised qualification in the prevention and control of infection in health and care settings. Particularly beneficial for anyone who is seeking employment and/or who wants to update their knowledge to be compliant in the workplace.

What you will learn

During this online course, you will learn about the following topics: 1) Common infections and the chain of infection. 2) The importance of correct hand washing procedures for infection prevention and control. 3) Principles of personal protective equipment (PPE) used in infection prevention and control. 4) The decontamination process. 5) Waste management procedures and the associated risks. 6) The roles and responsibilities in preventing infection.

Entry Requirements

This is a level 2 course and there are no formal entry requirements, however, a good level of literacy and keyboard skills are expected, although support is available. If you have any concerns regarding your literacy level or IT skills, please contact us.

How you will be assessed

Students will complete short mock tests following completion of the learning for each unit and when you are confident and following a discussion with your tutor, will complete a multiple-choice online exam.

Course Fees
