

# Mechanical Engineering HTQ Higher National Certificate

## Course Overview

This is a two-year part-time programme, culminates in the award of a Higher National Certificate (HTQ) in Engineering. Designed for individuals pursuing a career in Mechanical Engineering. This level 4 qualification offers students with advanced knowledge and a comprehensive understanding of Mechanical Engineering, with a strong emphasis on its practical application within the industry. The HNC/HND in Engineering is specifically structured to support students progressing from vocational backgrounds, enabling them to build upon the competencies acquired at Level 3 and transition effectively into higher education. On completion of level 4 qualification, you will be eligible to enrol on the level 5 HND (HTQ).

## What you will learn

Units have been distributed over two year period. During the first year of your study, you will be studying the following CORE units: 1. Engineering Design 2. Engineering Maths 3. Managing a professional Engineering Project 4. Production Engineering for Manufacture Units would include planned projects within the college or industry placement.

During the second year of your study, you will be studying the following units: 1. Quality and Process Improvement 2. Mechanical Principles 3. Fluid Mechanics 4. Fundamentals of Thermodynamics and Heat Engines

## Entry Requirements

Standard entry to this course requires: 1. Minimum of 32 UCAS points from a recognised level 3 qualification in a related subject (eg. T-Level, BTEC National or A-levels or equivalent) Or 2. Higher level qualification in an unrelated subject area. 3. You are expected to hold GCSE English and Maths at grade 4 and above or any equivalent qualification. We welcome applicants who do not match standard entry requirements but who can demonstrate the ability to study this subject at university level and who can evidence relevant experience. An interview is required to ascertain prior achievement.

## How you will be assessed

You will undertake a range of both written and practical assignments, presentations and in-class controlled assessments. For the HTQ element you may need to complete further project work or an industry placement where appropriate.

## Course Fees

For some practical activities you may need to provide your own PPE.

## Course Progression

On successful completion of the HNC (HTQ) course, you may continue to the level 5 HND (HTQ). Once you have achieved the HND, you will be able to apply to study further year to obtain a full degree at university. This qualification is well regarded throughout the industry and the academic world. Career opportunities include managerial and technical positions in Mechanical or electrical engineering.

## What Happens Next

Applications to our Full Time or Part time Undergraduate courses can be made directly through the college website and UCAS. Applications to our full-time undergraduate courses made through UCAS must use institution code L36 . You can apply directly using our direct application form via the College website. Due to the nature of this programme, you may also be invited to attend an interview. Where necessary, other means of interview (i.e. face to face, telephone, web-based) can be arranged.

## Course Details

Course Code	P00264
Start Date	22/09/2025
Study Hours	Part Time
Duration	2 years
Campus	Abbey Park Campus
Level	4
