

# ACS Core Gas Safety Reassessment Training

## Course Overview

To enable practising gas installers to refresh themselves prior to taking ACS reassessment, mostly theory training delivered in purpose-built training room. Learners will be taken through any industry updates that have taken place since their last renewal. The training will also go through processes like using gas analyser for identifying appliance compliance. Learners will be familiarised with type and style of knowledge questions they will need to answer during assessment, and the best methods to go about this. This is a full cost course. There is no fee remission available and you cannot apply for an advanced learner loan to pay for your fees.

## What you will learn

Primarily covering the changes to legislation, standards and work practices since the last assessment. Learners will learn how to use the necessary documentation to help them complete the assessments they are planning to undertake. All learners will also get hands on with gas controls to re-acquaint them with the various controls in the assessment they may not service every day such as Cooker thermostats.

## Entry Requirements

Re-assessment training is for learners who are already Gas Safe qualified and are looking to renew these qualifications.

## How you will be assessed

Assessment will all be formative during the enjoyable and informative gas refresher training sessions.

## Course Progression

Gas Safe registration is the normal progression for learners completing their re-assessment programme. Other elements can also be undertaken to enable a wider range of work to be undertaken by operatives when completing these extra assessments. Liquid Petroleum Gas is a popular element as it neatly aligns with natural Gas and increases the scope of work an engineer can offer.
