

Water Regulations Training Assessment

Course Overview

The Water Regulations is a qualification that develops learning understanding and knowledge of the mandatory installation requirements for cold water systems in England and Wales. A course which enables participants to meet the entry criteria for the Water Regulations Approved Contractors Scheme that is run by your local water undertaker. This is a full cost course. There is no fee remission available and you cannot apply for an advanced learner loan to pay for your fees.

What you will learn

Assessment is in three parts: written - open-book multiple choice question paper, written - closed-book multiple choice question paper, practical - visual inspection. Prior to attending for a half day training and a half day assessment candidates will be provided with a training manual. Pre reading of the training manual will greatly enhance learners enjoyment of the learning programme.

Entry Requirements

No specific qualifications are required for undertaking this certificated course however applicants must be able to demonstrate appropriate experience and competency of working as a plumber.

How you will be assessed

You will be assessed against national recognised standards in a controlled environment. The assessment will consist of one paper based exam that is open book.

Course Progression

Unvented Hot Water Regulations and Part 'L' Building Regulations are part of a suite of qualifications required to be recognised as a qualified plumber. The construction industry is increasingly looking for operatives that have a wide range of qualifications as opposed to just a basic NVQ L2. These short course qualifications are a recognised route to increasing your qualification portfolio.

What Happens Next
