

Make-Up Artistry Technical Certificate L2

Course Overview

This level 2 technical certificate in make-up artistry will provide you with a range of essential technical and practical skills and knowledge, which will equip you to seek employment or further training within the make-up industry. It is suitable for anyone over the age of 16 years. You don't need any previous knowledge or experience to start this qualification.

 If you are aged 16 to 18, you will be enrolled on a study programme. This will include retaking GCSEs or undertaking Functional Skills in English and maths if you haven't already achieved a grade 4 or above.
 You will take part in activities that help you to develop your personal skills, such as building your character and confidence. This will help you to live well and move into your chosen career.

 If you are 16-19 years old these activities will be timetabled as will work experience and placement. You can also choose to take part in other activities.
 For other age groups, activities will be tailored to your needs.

What you will learn

This qualification covers all the core skills you will need to progress to further learning and training, or to enter the world of work within the make-up industry. You will study the following mandatory content: principles of working in the make-up industry, during which you will learn how to comply with relevant legislation and work professionally, following safe working practices.

 Within anatomy and physiology for make-up artists, you will learn how face shape is created by the underlying bone and muscle structure creating facial proportions to enable you to enhance a person's features. You will also study the skin and underlying structures so you are able to choose and use appropriate products.

 During the research, develop and showcase unit you will gain a clear understanding of the principles of researching for make-up artistry designs, explore your own creativity and imagination, and learn how to create mood boards and face and hair charts from information gathered.

 The art of applying makeup will help you to develop knowledge of skin tones, face shapes and provide you with a wide range of application techniques to create total looks for models and clients.

 Hair artistry covers the fundamental skills for creating hairstyles to complement and complete looks and allow you to experiment with different techniques, products, tools, and equipment. Using the skills gained within creative make-up artistry you will be able to design and apply creative make-up including special effects e.g. cuts and bruises, upper body art, and face art.
